

Annex 14A. Exit interview form for EPIET fellows

1 Introduction

The overall objectives of the exit interviews are to:

- Exchange with the fellow their experiences on the training site (i.e. projects available, supervision, exposure to EU projects, etc.) with a constructive focus
- Confirm that the fellow achieved all the field assignments over the two year programme and that the fellow can receive the final certificate
- Identify the main gains from the programme and whether it met expectations
- Identify the strongest and weakest aspects of the training
- Provide the fellow with a more general feedback not only on their technical skills, but more generally on their overall skills/competencies as a field epidemiologist using as a starting point the beginning of their fellowship
- Exchange about future opportunities for the fellow (and if needed: to orient the fellow in his/her carrier path)
- Exchange with the supervisor his overall impression of the fellow and the EPIET programme focusing on ways forward for the future

The exit interview will consist of 3 parts where the fellow and supervisor get to give independent feedback on the individual achievements, training site and scientific coordination.

During each exit interview, we will use a standardised template (please find it in the next page).
