Annex 03. Guidelines for scientific outputs

Contributions

EPIET/EUPHEM/EAPs should follow the 'Uniform Requirements for Manuscripts Submitted to Biomedical Journals' for contributions and authorship.

Authors must have participated sufficiently in the work to take public responsibility for appropriate portions of the content. Other persons should be mentioned as contributors, usually in the acknowledgments. If one of the EPIET/EUPHEM/EAP coordinators qualifies for authorship, they may be included. If not, the front line EPIET/EUPHEM/EAP coordinator would usually meet criteria for acknowledgments and should be mentioned, as appropriate. Acknowledgements and authorship need to be approved by all persons included.

Clearance and technical green light for scientific communications (including late breakers and rapid communications)

The fellow is responsible for the institutional clearance of the Training Site, each guided by different rules. This should include review and approval by the co-authors, the site supervisor and the project supervisors.

Fellows who are first authors must also obtain a technical green light for all published outputs resulting from their fellowships (e.g. manuscripts, abstracts, book chapters) with their frontline coordinator, or an assigned scientific coordinator for review of the output. The request must mention where the final version will be submitted. For all outputs, if the frontline coordinator considers necessary, input, opinions and advice can be requested from a second reviewer.

EPIET/EUPHEM/EAP frontline coordinator technical green light is sought after approval of the training site supervisor and institutional clearance from the training site. In the event of disagreement regarding scientific content, the opinion of the training site supervisor will prevail. Scientific outputs that have not been reviewed and approved by EPIET/EUPHEM/EAP may not be published under the Programme affiliation.

Fellows who are co-authors must obtain technical green light for the output with their frontline coordinator before submission. When planning submissions, fellows must take into account the time required for the green light process and cannot set deadlines for submission on their own initiative. Rapid communications require prior agreement between the fellow, the training site supervisor and the frontline coordinator so that the team can work together by the deadline before any commitment is made with any journal. Work conducted with another organisation (e.g. WHO), requires institutional clearance from the other organisation.

To use the affiliation of the ECDC Fellowship after graduation, there must be a process of approval by the Head of Fellowship Programme (or by delegation to a Scientific Coordinator).

For presentations at local conferences where the language is not English, the abstract will be drafted in English then translated once the content has been agreed by the supervisor and frontline coordinator.

ECDC clearance is not required for EAP fellows, unless an ECDC staff member is a co-author.

Affiliation and acknowledgements

In addition to the affiliation of the training site, fellows must use the fellowship affiliations for all scientific outputs:

Approved publications of EPIET and EUPHEM fellows need to include the affiliation of their respective paths, either 'ECDC Fellowship Programme, Field Epidemiology path (EPIET), European Centre for Disease Prevention and Control (ECDC), Solna, Sweden' or 'ECDC fellowship Programme, Public Health Microbiology path (EUPHEM), European Centre for Disease Prevention and Control (ECDC), Solna, Sweden'.

For all the publications, fellows must include a disclaimer indicating, "The author is a fellow of the ECDC Fellowship Programme, supported financially by the European Centre for Disease Prevention and Control The views and opinions expressed herein do not state or reflect those of ECDC. ECDC is not responsible for the data and information collation and analysis and cannot be held liable for conclusions or opinions drawn".
Posters or oral presentations must include the logo of the ECDC Fellowship Programme. EAP fellows should use both ECDC Fellowship Programme and EAP affiliation and/or logos, in accordance with the recommendations of EAP scientific coordinators. Fellows must contact the Fellowship Faculty Office (epiet.office@ecdc.europa.eu) to request the ECDC logos.

**Joint first-authorship**

Joint first-authorship would be allowed for one of the outputs during the Fellowship. The Head of the Fellowship Programme, together with the frontline coordinators, will evaluate the contribution of each fellow and make the final decision.

**IMPORTANT:** Contributions, clearance, affiliation and acknowledgment rules must be strictly applied for fellowship-related work, both before and after graduation. Contact the coordinator team for specific guidance.
